

Take Advantage of our System Upgrade Programs!

5-year Milestone

As your system reaches its 5-year milestone, we strongly recommend a system upgrade not only to maintain optimal performance, but more importantly to ensure access to our newest training programs, equipment and scenarios.

New Technology, New Content, Evolved Training

We continually develop newer technology, training tools and content, which means older systems will not be able to support all that VirTra has to offer from our training platform.

Research and development have determined that all systems will need some sort of upgrade after 5 years to guarantee optimal performance and high-level training efficacy.

Upgrade within your Budget

VirTra plans for this process and offers system upgrade programs at a fraction of the cost of purchasing a new system.

Included in a System Upgrade:

- New computers
- New Projectors
- Computer rack
- Tracking system
- UPS
- New Instructor Station including monitors, keyboard and mouse
- Update VirTra Operating System to current version
- Complete V-300® base library of scenarios.
- Re-Laser Devices as needed

All upgraded items come with a full 1-year warranty included, with extended service plans available after the first year. Existing hardware will be returned to VirTra for disposal.

System Upgrade Program Eligibility

If your system has been under an uninterrupted capital purchase service contract for the entire five-year period or under the S.T.E.P. contract, then you are eligible for the system upgrade programs.

Options

S.T.E.P.

Those under the S.T.E.P. contract can choose to renew the five-year S.T.E.P. contract and receive the system upgrade.

Capital to S.T.E.P.

Those under a capital purchase service contract can enter into the five-year S.T.E.P. contract which includes the system upgrade and service plan.

Capital with Service

Those under a capital purchase service contract can take advantage of the capital system upgrade plan which includes a one-year service plan with extended service plans available for subsequent years.

Package prices will vary depending on system, equipment, and training needs. Contact your sales representative to discuss which option is right for you.
