

V-XR®

Extended Reality

Training You Can Take Anywhere

Interact with life-like characters to learn vital soft skills. Equipped with hours of instructor-led, certified training, the V-XR headset empowers you to train using your own tools.

V-XR® mixes the physical and digital worlds, creating a blended environment while reducing motion sickness. V-XR users can train for longer periods of time with better skill retention, making it an ideal training solution.

- **Lightweight and Portable; indoor or outdoor**
- **Pass-Through Technology** [reduces VR motion sickness]
- **Indirect Weapon Integration uses real-life tools**
- **Volumetric Capture Characters that are more realistic than CGI**

3 METHODS OF TRAINING:

- Practice soft skills such as de-escalation, communication, mental health, crisis intervention, workplace violence, and more.

- Immersive surround video with enhanced audio and visuals to help emphasize learning and discussion points.
- Guided Virtual Instructor

- Interact with a variety of characters that present different challenges
- MIMIC function allows instructors to speak and disguise their voices.

What's in the Kit?

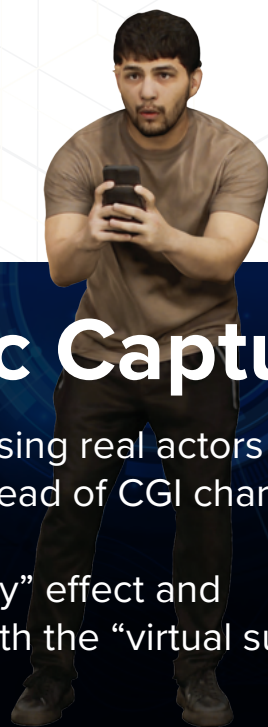

- 2 x HMDs, Controllers, Charging Docks
- 1 x Tablet
- 1 x Router
- 1 x Quick Start Guide
- 1 x Power Supply with Charging Devices
- 1 x V-XR Setup Floor Mat
- Accessories

V-3™ Volumetric Capture

VirTra creates life-like characters using real actors in the V-3 Volumetric Capture Studio instead of CGI characters.

This eliminates the “Uncanny Valley” effect and encourages trainees to connect with the “virtual subjects.”
