

VirTra

Law Enforcement

Did You Know?

Our goal is to help officers **return home safely** each day while keeping their communities safer. This is why VirTra created realistic and immersive scenarios that keep law enforcement safe, prepared, and armed with excellent skills.

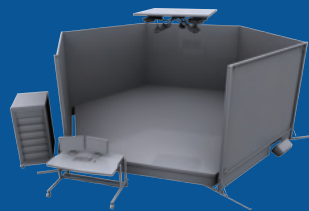

Real Life Training

Real-world simulation training is even more realistic through VirTra's patented **drop-in laser recoil kits** and ECW training devices. Officers can train with their own tools within the simulator, minimizing training scars.

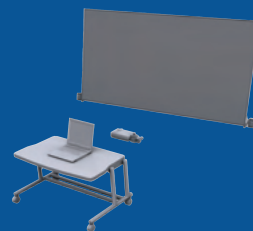

Certified Curriculum

Law enforcement has access to V-VICTA® coursework – **90+ hours** of curriculum NCP certified by IADLEST. This curriculum is recognized by POST and saves instructors time and money while ensuring relevant knowledge is gained.

Customized Scenarios

Even with an already vast library of video-based scenarios, instructors can create and edit scenarios customized to their agency's training objectives using **V-Author**®. This provides more freedom and less limitation in training.

Non-Lethal

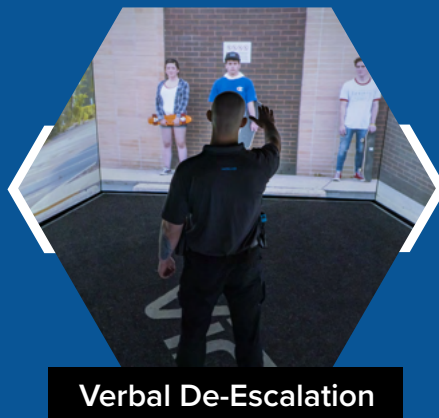

Mental Health Awareness

Crisis Intervention

TASER Training

Verbal De-Escalation

Active Threats

“What made us choose VirTra was the options it had that would enhance what we were currently doing. We saw there was a lot more application, more realism and opportunity to integrate some of the stuff we saw coming related to the force option from verbal de-escalation all the way through lethal force.”

Todd Brophy, Training Specialist and Use of Force Expert
