# VirTra

## GLOCK 17/22 NON-GUN

VirTra's laser-based Blue Non-Gun Glock 17/22 is designed to train individuals on VirTra simulators more safely. The blue exterior signifies the training tool, which replicates the shape and weight of a real Glock 17/22 to prevent training scars.

## Blue Non-Gun

Compatible with VirTra rail mount training flashlight.

SIRT Blue Non-Gun is custom made to fit VirTra's standards and training technology.

Non-gun identification consistent with many regulations (red tip) to ensure rapid identification.

Eliminates trigger jams over extended shot capabilities.

Ambidextrous usability for left- and right-hand users.

Weighted durable magazine is drop tested at six feet, making loading and reloading more reliable during training exercises.

Designed to represent trigger pull of a real weapon.

Malfunctions and empty gun simulation controlled via VOS.

**Reliable with shot testing durability at 5x more than competitors, with over 25,000 shots tested.**

## Other Benefits

The Blue Non-Gun is completely compatible with: V-Author, V-Sims, V-Marksmanship and V-Ballistics.

Works as an exercise for dry practice.

VirTra's laser-based M4 Non-Gun is designed to train officers on VirTra simulators more safely. This training tool replicates the shape and weight of a real M4 to prevent training scars while increasing skill transfer.

## M4 Non-Gun

Intrusion sensor—enabled/disabled by user

Picatinny Rail

Lightweight Aluminum/Polymer construction.
Durable Powder Coat Finish

30 round default shot capacity. Configurable to other capacities

Alert Delay: 2 seconds. Is configurable by factory

Configurable Stock Length

Optional Rumble Motor and Shot Sound.
Upgradeable Sight Options

Modes of fire: safe, semi-auto, full auto

## U.S. Patent No. 7,506,468B2

## Other Benefits

The M4 Non-Gun is compatible with all simulation solutions and software applications from VirTra.

Works as an exercise for dry practice.
