**Firearms Training System Provider, VirTra Systems, Announces Hiring of
Respected Hardware Engineer**

Tempe, Arizona (February 8, 2012) -- VirTra Systems (OTC Pink: [VTSLPK](#)), a leading provider of [firearms training systems](#), today announced the addition of Perry Baker as the new Vice President of Hardware Development. Mr. Baker leaves Raytheon Missile Systems, as Senior Principal Mechanical Engineer. Previous to Raytheon, Mr. Baker was the Senior Manager of Mechanical Design & Analysis for Rockwell Collins for 21 years. Perry Baker has over 25-years experience in hardware design and management within the department of defense marketplace. Throughout his career, Mr. Baker integrated cutting-edge technologies into successful products that met military specification requirements for the US Army, US Navy, US Air Force, US Marines and NATO countries.

Bob Ferris, President and Chief Executive Officer of VirTra Systems, stated, "For over 25 years Perry Baker has delivered superior products to military customers worldwide. We are honored to welcome Mr. Baker to VirTra; his tremendous experience and talents in hardware engineering are expected to propel VirTra to new heights."

About VirTra Systems

VirTra Systems, Inc. is a global leading provider of the world's most realistic and effective small arms training simulators. VirTra is the higher standard in firearms training simulators, offering the only video-based 300-degree simulator platform and the patented Threat-Fire™ hostile return fire system. At VirTra, we believe that personnel entrusted with lethal force and critical missions require the very best training available.
